

Hello;

From
Buzz Web Design

What do we do at Buzz

- 1, At Buzz, we design, build and maintain websites for small companies, societies and private individuals.
- 2, We build new sites with SEO (Search Engine Optimisation) always as a priority. We have had many years learning and studying the complexities and requirements for search engines, it's a constantly changing world. Many people can build websites but having a website that cannot be found really is pointless and can be a financial disaster.
- 3, Once the website is completed, we will upload it to the internet, and then for 12 months, maintain it for SEO on a regular basis. We will also do any alterations, amendments and additions to the site, text images etc. Additional pages are no problem but will incur additional costs – See Costs
- 4, Once the 12 months is up and the site is paid for you are free to do as you please. We are more than happy to continue with all work on the site, alterations, amendments and additions and all SEO work. But if you would like to continue the work yourself, we will transfer the site over to you. It's a quick, simple and totally free of charge process.
- 5, Once we receive the payment for your first year's hosting and domain name we will begin your site. A five-page site will normally take around 3-4 weeks to complete, a larger site with online store can take around 6 weeks. Please see *'What we require from you'* below - we cannot start a site until we have the information from you.
- 6, A five-page site normally has:
 - 1, Home
 - 2, About us
 - 3, Gallery
 - 4, What we do
 - 5, Contact us

But it's completely up to you as to what you would like.

Hello;

From
Buzz Web Design

What we require from you

- 1,** We will require all the text that you require on the site.
- 2,** All images. These need to be as high a quality as possible. We can manipulate them in our imaging software and reduce the size of the image to what we require. But we cannot increase the size, as this produces pixelated images.
- 3,** An email address to link to the site and to receive enquires from the contact form. If you require a new business email address containing your domain name, we will register and purchase that for you. It is completely your decision as to whether you would like your email address to appear on the website, or just use a contact form which doesn't show your email address.
- 4,** Initial payment for the first year's hosting and a new domain name if one is required. Direct Debit set up for 12 equal monthly payments, the first payment on the date the site is uploaded and live.
